TracPhone® V3HTS

The world's fastest, lightest
ultra-compact marine VSAT

The world's fastest, lightest ultra-compact marine VSAT - the TracPhone V3_{HTS} from KVH

Optimize business efficiency, profitability, and crew morale with TracPhone V3_{HTS}, the 37 cm Ku-band marine VSAT system that lets you make the most of your time at sea. The TracPhone V3_{HTS} offers unmatched speed and the power to go farther and faster than ever before with global connections via the mini-VSAT Broadband™ HTS network. Now you and your crew can enjoy the same connectivity experience offshore as you enjoy on land, from KVH, the No. 1 maritime VSAT communications provider.*

The speed and power for every connection you need onboard

Photo: Seacat Services

The TracPhone V3_{HTS} outperforms leading competing 60-85 cm Ku-band antennas and sets the new standard in marine satellite communications. Ultra-compact at 37 cm, lightweight, and packed with power, the TracPhone V3_{HTS} makes it easy for you and your crew to connect with the main office, chat via WhatsApp™, get weather and chart information, browse the Internet, check emails, stream HD content, and more.

This end-to-end SATCOM solution provides:

- ▶ A rugged antenna with high-performance stabilization and tracking
- ▶ An ideal solution for smaller boats or as a streaming fast VSAT backup for larger commercial vessels
- ▶ Data speeds as fast as 5 Mbps/2 Mbps (down/up)
- ▶ Affordable metered airtime plans that provide:
 - ✓ The fastest available network speeds at all times
 - ✓ Monthly data packages designed to fit your needs
 - ✓ Flexible options to switch plans or temporarily suspend service

The most advanced maritime network available

The TracPhone V3HTS, together with KVH's mini-VSAT Broadband HTS network, offers unmatched speed and coverage using new next-generation high-throughput satellites (HTS) from Intelsat and additional capacity from SKY Perfect JSAT, all of which are integrated within the Intelsat Flex Maritime platform.

KVH's HTS network with 272 million sq. km (105 million sq. miles) of coverage

A high-speed global network that delivers speeds as fast as 5/2 Mbps (down/up) to the TracPhone V3HTS coverage area

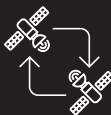

KVH's 6-Level Cybersecurity Program offers advanced network-level firewall with automated threat management for additional security and cybersecurity training

Greater resilience to weather and rain fade than Ka-band services, so you are connected when you need it most

Crystal-clear, prioritized VoIP service for exceptional call quality; system also supports Wi-Fi Calling via compatible cell phones*

Automatic, fast switching among the network's worldwide, redundant beams, ensuring seamless and reliable communications wherever you travel

**Requires Wi-Fi Calling support via your cell phone service provider*

mini-VSAT® Manager - creating confidence through control

The secure myKVH™ portal's mini-VSAT Manager suite of tools gives you valuable insight and control over data usage to manage your operational and crew use.

- ▶ Control how your data is used, view real-time usage and history reports, and set up usage alerts.
- ▶ View current and historical vessel tracking data from any Internet-connected device.
- ▶ Ensure that your data is being used for the activities most important to you. The exclusive Category Control tool allows you to allow, restrict, or block data usage in nine application category groups as well as background data applications to limit unintended data use by software updates or protocols like Apple iCloud®.

The engine that drives it all

The powerful Integrated CommBox™ Modem (ICM) with its high-throughput modem, Voice over IP (VoIP) adapter, versatile network management software with least-cost routing, and built-in Wi-Fi and Ethernet is the streamlined all-in-one belowdecks unit that drives the TracPhone V3HTS.

Bring the best onboard with KVH

Chosen by leading commercial maritime fleets, along with military and government vessels worldwide, KVH's TracPhone and TracVision® products are relied on for business-critical operations. With more than 200,000 in-motion antennas fielded worldwide, KVH has supplied more satellite communications and TV antenna systems for mobile applications than any other manufacturer. When you choose KVH, you choose the best!

Stay connected with KVH's global support

KVH OneCare™

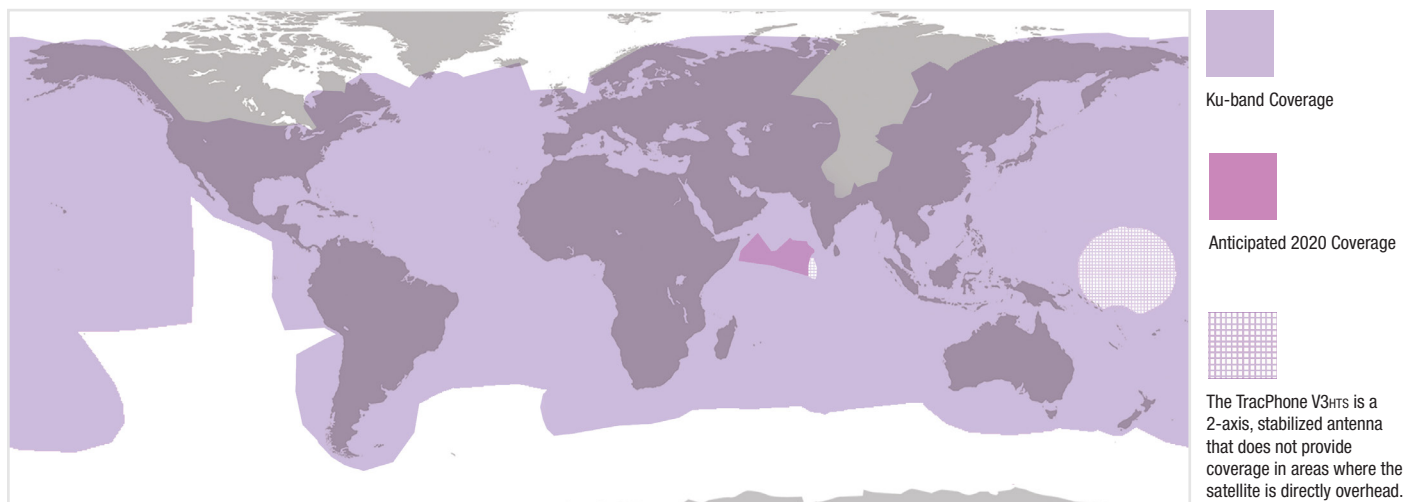

Our global support program protects your VSAT investment and helps you gain a competitive edge. With KVH OneCare, you enjoy the maritime industry's most comprehensive array of services including:

- ▶ Application Engineering, Solution Deployment, and Operating Support for the life of your product
- ▶ 2-year parts and labor warranty along with option for extended warranty coverage to as many as 5 years

Proactive Monitoring

Every TracPhone HTS-series system reports daily on 150+ performance and health parameters to help optimize your system's performance for a premium connectivity experience.
